

Background Check Instructions

West Virginia Code §30-1D-1 known as “Lynette’s Law” went into effect as of July 1st, 2017. This law states that criminal background checks are to be required for new applicants seeking professional licensure in West Virginia. Due to this, the West Virginia Board of Dentistry must require that all new Hygiene and Dental applicants complete a state and national criminal history record check, before any license can be issued. There will be no temporary approvals, or exceptions. **The license will not be issued without a completed background check.**

Instructions are provided below to assist you with completing your background check and fulfilling this mandatory requirement for licensure. It is recommended to start this process as soon as possible. This Board has no control over the length of time it takes for the results to be made available.

*****In State Applicants Only*****

Background checks can be initiated by fingerprint capture at any Identogo location. Identogo provides for the secure capture and transmission of electronic fingerprints for licensing and verification purposes.
